-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION*****Response to Arguments***

Applicant's arguments filed 10/15/03 have been fully considered but they are not persuasive. Applicant argues the failure of Murray to teach any response to the breaking of the cation resin indicates a lack of recognition that the breaking of the cation resin is a significant development, and it would therefore not be obvious to one of ordinary skill at the time of invention to stop the injection of hydrazine. However, stopping the injection of liquids in order to ensure that the process occurs effectively (which requires a working cation exchange resin) is obvious to one of ordinary skill in the art. The fact that the Murray reference does not teach a response to the breaking of the cation resin would not prevent one of ordinary skill at the time of invention from acting accordingly. Moreover, the lack of a teaching in Murray cannot be determined to be due to a lack of recognition of a significant development; it may just as likely be that Murray either did not experience the breaking of the exchange resin or that Murray thought it obvious to halt the process when a major component broke down.

The terminal disclaimer filed on 10/15/03 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6,335,475 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Murray '855 in view of Milner '513 and JP 409174066A.

The rejection of the previous office action is maintained in its entirety and incorporated herein by reference.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
